WHY CAREER SWITCHERS LEARN FASTER THAN THEY THINK.

> You learn faster than you think, especially when you are switching careers.

Tolulope Michael

When you're new, everything feels big. But something surprising happens:

- Your mind becomes sharp again.
- You pay attention.
- You pick things up quickly.

Beginners grow fast because they're not on autopilot.

You don't need to know everything today.

You only need:

- A simple plan
- A steady routine
- A curious mind

Small steps build real skill.
