CYBERSECURITY ISN'T JUST FOR TECHIES

Tolulope Michael

Most people assume you need to code, or hack before you can build a career in cybersecurity.

Tolulope Michael

Here's how you navigate your path into cybersecurity without being a techie.

- Identify transferable skills:
- Learn the basics
- Get hands on exposure

Tolulope Michael

What's one transferable skill you already have that could open doors in cybersecurity?

Follow @Tolulope Michael for more insight on cybersecurity
