HOW TO CHOOSE A PATH

If you're Just Starting Out

Tolulope Michael
Techpreneur/Cybersecurity Expert

GRC (Governance, Risk & Compliance)

Best for you if you love documentation, policies & business communication.

You don't need deep technical skills to begin.

1

SOC Analyst (Blue Team / Security Operations Center)

If you enjoy monitoring threats, analyzing alerts & responding to attacks this might be your lane.

It's hands-on. Fast paced.

Cloud Security

Cloud is the future. And companies are migrating fast.

If you love tech, architecture & automation, this path opens major doors.

Which path are you leaning toward GRC, SOC, or Cloud?
